## From The President

**Hello Everyone,**

Our next meeting will be held at Lakeside Center.

If you missed the Christmas party, then you missed a great time. I would like to thank Joan McCoy, and all the other lady's that made all the cookies, and things for the party. These lady's never let us down when it comes to baking delicious stuff. Thanks so much!

It's been a long time since our last meeting, and there have been a few changes at the field, that I think should be discussed. I have been in touch with the landfill, and will bring all the emails that have been sent to me, so that you will know what is happening.

Our membership dues should be paid, and I have been told we haven't had a lot of members paying for the next year.

If there is something on your mind, now is the time to let everyone know, so we can get things ready for this years flying season.

See you at the meeting.

Keep building

*Ron*

## From Your Editor

**Hi Fellow Eagles,**

Well, here we are starting a new decade of R/C Eagles flying! A lot of members haven't paid there dues yet, I'm one of them, so lets try to get them paid by or at the January meeting. This year, if you haven't paid your dues by the March meeting, you will no longer receive the newsletter. I went down to the field and we now have a fence at the north end of the field which sticks up slightly into the approach path from the north. I don't think it will be a problem and may even save a few planes from winding up in the valley.

Jim McCoy notified me that the dates for the New Town Mall show this year are: February 25th after 6:00PM for setup, February 26th - 28th for the show with tear down Sunday afternoon. We need to decide if we are going to participate, and if so we need a volunteer to take charge of the show and many additional volunteers to work the booth. This is a great opportunity to help the club and get in an afternoon or evening of girl...er I mean people watching!

Guys, this looks like it will be an interesting year for the Eagles Club. Our membership is shrinking for many reasons, restrictive flight area, the loss of some of our older pilots, the economy, and a general thinning of the modeling community. I can't see us having a Fly-In this year with the flight area restriction. You can't invite pilots of all abilities to come fly and then tell them they can't fly over areas that many pilots would need to use for approaches. So, we lose that source of income. What with the drop in membership, the loss of the income from the fly-in and other factors we need to economize and take care of the assets we have.

The AMA recommends that each club form a committee and do their best to recruit new members into the modeling fraternity. If you see a visitor, introduce yourself and ask them if they have any questions. Give them a reason to get into the hobby.

Ladies and gentlemen, this is your captain speaking.  
There is a minor malfunction in the pressurization  
system, but no problem, an oxygen mask will come  
out of the unit above your seat automatically
