President's Report

Hello Everyone,

I am glad to say that Wilma Reed is out of the hospital and doing well, and Art Jansen is also out, and about, and giving his wife headaches, so he must also be doing well. Glad to hear you both are feeling better. Well, there is not much going on right now, so I hope you are out there flying (in-between the rain drops). Our next meeting will be at the field, June 21st. and the club will supply the hotdogs. Please bring a side dish to share with other members. This will be the last meeting before our fly-in, so I hope everyone will attend. I will have new metal direction sign's made for the fly-in, and, as we have discussed, be getting coverage in the local newspapers about our event. We need everyone's help to put on another great event.

But, as of the last meeting no one has signed up to help.

Fly Safe

Ron

Editor's Notes

Hi All,

Ron, Gary, Justin and I attended the Corsair's annual big plane fly-in and had a great time. The weather was a bit windy and showers threatened all day but a lot of flights were logged by about 30 pilots. As most of you know our annual fly-in is on July 9th and we will need our members to volunteer to help work the transmitter impound, concession stand, parking, registration, and other duties. If every member showed up, no one would have to work more than 1/2 hour!! Please try to come and help the club. This is our single biggest money maker and helps us keep our dues low, and provides us with the opportunity to showcase our field and our great club.

I'm very happy to report that Wilma Reed is back on her feet and even showed up at the field with Miles. Here's hoping for a speedy recovery.

My trip to see Mickey was a big success and gave me a chance to visit some hobby shops in Florida. Not one matched the selection at our local hobby shops.

My Carden Extra 330S finally took to the air last week and now has 9 flights on it. I'm still expanding the envelope but it flies very well. Miles also test flew his new Weeks and it flies just like every other plane Miles builds...AWESOME!!!

SEE YOU AT THE MEETING!

Field Report

Hi All!

So far this year, up to this point, is almost a carbon copy of last year. We are having a lot of rain which is keeping the Field very green, which means we must mow the field twice a week and sometimes we have to mow when it is wet. This creates a longer job keeping the lawn equipment clean. The Flying Field will be in great condition for the R/C Eagles Fly In to be held on July 9th if this type of weather continues. A new water barrel has been installed at the field. This is the water that is used to clean the mowing equipment. We would like the R/C pilots that use channel number 28 to check their equipment over and see if you have taken the 28 pin home with your transmitter. We need the pin back at the Field. Some of the pilots that use pin number 28 are a little reluctant to fly because the pin is missing. Please return pin number 28.

See you at the field!

Jim, Keith and Bob

Events
