Where Eagles Soar!

Volume 15, Issue 5
May, 2010

From The President

Hello Everyone,

Well I see mother nature is at it again.. a balmy 48 degrees. Sure hope it warms up soon!

This will be our last meeting at Lakeside Center (for the summer). Starting in June we will be at the field.

With the attendance at the meetings being down (and almost next to nothing), please come and give your opinion on whether or not to have food at the summer meetings. It may not be worth the trouble if members don't show up or bring covered dishes to share. I also need a volunteer to get the burgers, dogs and buns.. and also to cook them at the field if we decide to eat together.

Remember this is your club, and your field.. PARTICPATE.

On a sad note we lost a fellow member.. Dick Zaleski passed away. Our prays go out to his family.

Will I see you at the meeting?

Ron

From Your Editor

Hi Fellow Eagles,

May has arrived and now the storms start. I hope the weather calms down in a few weeks so we can get down to some really serious flying.

I am very sad to report that we have lost another valued member of the club with the passing of Dick Zaleski. We will miss his odd flying creations and his friendly disposition at the field. Our condolences to his family and friends...He will be greatly missed!

The May meeting will be the last held at Lakeside Center until fall. Next month we will start with the monthly meeting/cookout so be thinking of all that scrumptious food we will be having.

For some reason, maybe the weather, I'm having a difficult time getting into the flying mode this year. I think it'll come back when I get my plane ready to fly with the new radio, something I've been putting off for lack of enthusiasm. Sunny days will surely help!!

Don't forget that we will need lots of help at the fly in and we only have one more meeting before it takes place. Please come to the meeting and volunteer to help.

While you are at it, see if you can interest one or more of your non-flying friends and/or neighbors into getting into the hobby. We need new members who are willing to shoulder some of the responsibility for keeping the club running. We need to show our friendly side to visitors and promote, not only the sport, but our club as well. If you see a visitor at the field, talk to them, don't make them take the first step. Be encouraging and demonstrate your equipment and skills so that they understand the sport and the skills needed to participate.

On that note, I think we should make up a club brochure and have them available at the fly-in and at Aerotech. What do you think?

Keep flying and dreaming!!

Kraig
